

# TOP 30 VOLUMES

Instant suffering, feelings of enjoyment and satisfaction, making an effort, peace and calmness... these are words closely related to climbing.

Bouldering is seen as the distilled essence of the act of climbing.

Bouldering emphasizes power, strength, and dynamics and is nicknamed the poetry of climbing. Top30 presents its family of *Volumes*. These are products inspired by three famous bouldering spots and we have taken great care in the design of our new family members.

They will arguably make climbing more diverse and realistic and bring life to flat and featureless wooden panel walls."
